#### THE PRESIDENT'S LETTER

#### To the Shareholders of Anheuser-Busch, Incorporated:

The year 1961 will be generally remembered as one of many uncertainties and contradictions.

Numerous predictions were made about the economy of the nation. These predictions were almost as varied as the number of forecasters who made them.

With the troubled world situation, with the new Administration in Washington—and other unknown factors—it is easy to understand why such a situation would prevail.

Insofar as our own Company, Anheuser-Busch, Inc., was concerned, the year 1961 ended up as a good one—although at times the final results seemed somewhat clouded.

For the first nine months of the year sales were behind the previous year. For the balance of 1961, however, the operating results were such as to make sales and earnings the largest in Anheuser-Busch's 109 year history.

Our sales were in excess of \$402,000,000, our volume was 8,508,286 barrels of beer.

This was an increase in \$1,147,000 in sales and 31,187 barrels in volume.

Our earnings for 1961 should be viewed in a dual light so that the results can be properly evaluated. We are reporting them with the sale of the Miami Regal plant included and also as the result of our normal business operations.

Earnings were \$15,115,680 or \$3.08 per share. This compares with \$15,415,910 or \$3.15 per share in 1960.

Net earnings (before deducting loss from sale of the Miami plant) set an all-time record for Anheuser-Busch, amounting to \$16,007,538 or \$3.26 per share.

The previous year, 1960, was the biggest year in Anheuser-Busch's history. The year just closed, 1961, has now established new records on almost every level of activity for our business. Not only was our beer volume up, but so were the sales and earnings for the Yeast and Corn Products Division.

The Yeast and Corn Products Division has become a very important part of Anheuser-Busch's diversified operations and accounted for approximately 14% of sales and earnings.

On February 1, 1962, we purchased from Rahr Malting Co. their malt plant at Manitowoc, Wisconsin. This plant will add 5,000,000 bushels of malt to the 2,500,000 bushels of malt we have been producing in St. Louis.

On February 2, 1962, our Company was served with notice that the Attorney General of the United

States had brought an action against Rahr Malting Co. and our Company, alleging that the acquisition of the Manitowoc plant violated Section 7 of the Clayton Act. It is our firm belief that our Company was not guilty of any violation of the antitrust laws in the acquisition of this plant from Rahr Malting Co. We will keep you advised from time to time of developments in this matter.

We have never made it a practice of trying to predict the outcome of business in the years ahead. It has been our theory that the most important factor in guaranteeing satisfactory results was the operation of the soundest kind of business on every level of our operation.

We will complete, in 1962, in excess of \$20,000,000 of improvements to our St. Louis plant, which will give us increased volume under the most modern and efficient conditions of operation.

Our marketing program for 1962 is geared to our analysis of the conditions which will largely govern operations for the year.

Details of the results of 1961 in comparison with previous years will be found in the sections of the report which follow.

It is again my privilege to extend to our shareholders, on behalf of the entire management group of Anheuser-Busch, the sincere appreciation of our officers and directors for their confidence in us.

Respectfully submitted,

August A. Busch, Jr.

President and Chairman of the Board

### THE ANNUAL MEETING

of the shareholders of the Company will be held on Wednesday, April 25, 1962 at 10:00 a.m. A notice of that meeting and proxies on behalf of the management will be sent to the shareholders on or about April 2, 1962.

Return on average invested capital for the year was 10.1% compared with 11% for 1960, and the ratio of earnings to net sales was 4.9% compared with 5% for 1960.

Cash dividends of \$1.50 per share were paid in 1961 compared with \$1.40 in 1960. The Company paid cash dividends in each of the past 29 years, and stock dividends in the years 1953 and 1954.

A summary of the consolidated income statement on page 12 for the past two years shows the changes that took place during 1961.

Our Los Angeles brewery expansion was completed in 1961. Expansion and modernization of the St. Louis brewery is now in progress with completion scheduled late in 1962.

On October 2, 1961, the Company consummated a sale of its Miami brewery.

Depreciation provision of \$11,157,507 includes \$1,686,200 of accelerated depreciation provided by methods permitted pursuant to the Internal Revenue Code.

#### **SHAREHOLDERS**

At the close of the year, shareholders numbered 16,820 compared with 19,680 at the end of 1960.

|   | Holders<br>of Record | Shares<br>Held |
|---|----------------------|----------------|
| Men   | 4,903                | 853,093        |

| Total   | 16,820               | 4,904,491      |

#### **EMPLOYEE RELATIONS**

At December 31, 1961, employment was 8,387. Salaries and wages to officers and employees amounted to \$66,232,279. Pension,

life insurance and welfare benefits aggregated \$5,434,883; payroll taxes totaled \$1,687,875.

#### **FARM PRODUCTS**

Farm products purchased by the Company in 1961 had an aggregate value of \$39,195,000. Processing of brewers grains and corn produced 97,300 tons of high protein feed having a sales value of \$4,163,000, which was returned to the farm as feed.

The American farmer supplies the domestic hops, barley, rice, and other grains used in the production of beer; corn for various products produced from corn; and molasses used in the production of yeasts.

In the brewing of Budweiser, the Company is one of the few breweries using rice exclusively as an adjunct grain to barley malt.

#### RESEARCH

The Company has research organizations engaged in the improvement of existing products and processes and the development of new products.

Brewing research and development refers to investigation of all factors involved in brewing-from the raw materials to the finished product. It involves very basic studies as well as large, plant-scale testing programs in order to arrive at, and maintain, the maximum quality of all of our products. Development work has succeeded in providing means for reducing costs and capital expenditures for present and future expansions. Patents have been obtained covering highly economical and advanced equipment. Work on new products is continuing. One of the latest developments is the erection of a pilot unit (the first of its type) on the St. Louis premises for study and evaluation of the Phillips Petroleum Company's beer concentration process.

The yeast-corn products research department has developed new products and processes to improve and expand the Company's position in the field of corn products, bakery products, and pharmaceutical products from fermentation. Effort is being made to reduce production costs in the bakers' yeast operations by the use of modern equipment, instruments, and manu-

facturing techniques. New specialty corn starches and corn syrups have been developed.

#### ST. LOUIS CARDINALS

Consolidated operations of the Cardinals and its subsidiaries for their fiscal year ended October 31, 1961, including sales of player contracts totaling \$525,000 to the two new National League baseball clubs, resulted in a net gain of \$128,863.

#### MANAGEMENT CHANGES

During 1961, Mr. Richard J. Bender was appointed Vice President in charge of purchasing and Mr. R. A. Rawizza was appointed an Assistant Controller.

#### STOCK OPTION PLAN

On August 2, 1955, shareholders approved a restricted stock option plan for officers and key employees of the Company and its subsidiaries to the extent of 240,811 unissued shares of common stock. Option prices are not less than 95% of fair market value at dates of grant (110% in the case of a person possessing 10% or more of the combined voting power of the Company).

In 1961, options covering 89,150 shares at \$54.27 a share were granted. Options covering 12,952 shares were exercised at prices ranging from \$19.00 to \$36.575 a share.

At December 31, 1961, the following options were outstanding:

#### LEGAL PROCEEDINGS

On September 10, 1957, the Federal Trade Commission entered an order which would prohibit the Company from reducing prices in any market where it is in competition with other brewers, unless it reduces its prices for the same quantity of beer everywhere by the same percentage. The Company appealed this order to the United States Court of Appeals for the Seventh Circuit and the controversy ultimately reached the United States Supreme Court. During 1961, the case was brought to a successful conclusion with the final decision in favor of the Company.

On October 30, 1958, the United States, acting under the direction of the Attorney General, filed a complaint against the Company and the corporations from which the Company purchased the Miami Regal brewery, alleging that the effect of such acquisition may be substantially to lessen competition or to tend to create a monopoly in the production and sale of beer in the State of Florida and in various sections thereof, in violation of Section 7 of the Clayton Act, and seeking an order requiring that the Company divest itself of all the business acquired from such other corporations. including trademarks, inventory and assets relating to the production of Regal beer in Florida. The Company negotiated with the United States a consent judgment which in effect required the Company to offer for sale the Miami Regal brewery at a price and upon terms acceptable to the United States District Judge having due regard among other things for the reasonable market value of the Miami Regal brewery and the necessity of effecting a prompt sale, On October 2, 1961, the Company closed a sale of the Miami Regal brewery, including trademarks, inventory and assets relating to the production of Regal beer and ale. The sale was made in compliance with the foregoing consent judgment and was approved by the United States District Judge at Miami, Florida.

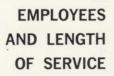

On July 14, 1961, a complaint was filed against the Company by International Breweries, Inc. in the United States District Court for the Southern District of Florida, at Tampa, alleging that the Company is unlawfully using the word "Bavarian" on one of its beers, and seeking to have the Company enjoined from using the words "Bavarian" and

"Bavarian's" in connection with the sale or distribution of beer or closely related products other than in certain areas where such words were used on May 15, 1957. The complaint does not challenge the use by the Company of the trademark "Busch" in connection with the sale of Busch Bavarian beer.

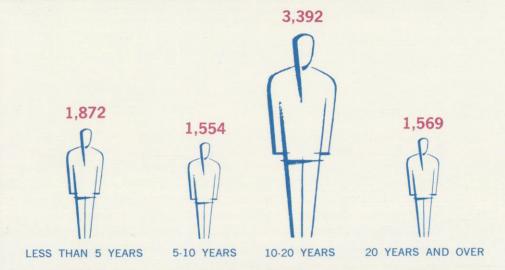

The Company was defendant in certain other lawsuits at December 31, 1961, the ultimate outcome of which cannot be determined at this time. The Company's liability under such suits, if any, would not materially affect its financial condition or operations.

#### OTHER MATTERS

The directors and shareholders of the Company have, subject to certain conditions, authorized an investment of \$5,000,000 in securities of the Civic Center Redevelopment Corporation which was formed to redevelop an area adjacent to the central business district of St. Louis by the construction of various improvements, including a stadium. The Company's obligations, in respect thereto, are conditioned upon the procurement from other sources of the balance of the required capital, the negotiation of a satisfactory lease for the use of the stadium by the Cardinals, and certain other conditions in connection therewith.

HOW ANHEUSER-BUSCH IS RUN...

#### From corporate policy to satisfied customers

Policies of Anheuser-Busch, Inc., are made by its Board of Directors. These are the major decisions that deal with financing, new plants and plant expansion, new products and expansion of sales areas, appropriation of funds for operating purposes, appointment of officers of the corporation, and the like.

These policies are carried out by the executive staff and the people in the various departments, sometimes with the help of outside agencies and consultants.

However, the focal point of all of these decisions and the enormous coordinated effort to carry them out is the customer—the person who buys and uses our products.

But Anheuser-Busch has many millions of customers—people who buy and use its products. It would never be able to reach all of these customers at the crucial point of sale with its own employees—more than 8,000 in number—because most of them

are engaged in manufacturing and administrative work.

That is why Anheuser-Busch must count upon many thousands of people outside its own organization to complete the policy decisions made by its Board of Directors. These are the sales and service people employed by the more than 900 wholesalers that distribute our products and the nearly 400,000 retailers that sell to the public.

The photographs on these and the following pages tell the story of how the corporate and managerial decisions of Anheuser-Busch are carried out where they count most—at the point of contact with our millions of customers. While this picture story deals with sales of beer—the company's main product—the story it tells is true in principle about all of the company's products, including bakers yeast, corn syrup, and starches.

Service for the retailer. When a retailer wants to place an order in a hurry, he calls the Anheuser-Busch branch or wholesaler in his area. The order is taken and given prompt attention.

The driver-salesman works hand-in-hand with the store owner or manager in stocking our products. He also keeps the store manager aware of the importance of stock rotation and the importance of keeping the display well stocked.

The branch salesman does more than just take orders.
He discusses special problems a retailer might have and tries to help solve them. He also helps him plan point-of-purchase materials, discusses decoration for the bar and helps the retailer to serve his customers the best glass of beer possible.

A typical Budweiser wholesaler plans the day with one of his salesmen. In this way the most is accomplished every working day and new company policies can be outlined so the salesman can explain them to his customers.

The wholesaler's salesman helps a customer display the products. He helps his customer with special promotions that increase sales and profits for the retailer.

A cooler full of Busch Bavarian Beer makes a day on the water an even more enjoyable experience. Marina owners, ski lodge proprietors and others who serve people who enjoy outdoor sports often suggest Busch Bavarian to their customers.

Michelob, the world's most distinguished draught beer, is sold in establishments of good taste across the country.

The bartender gives Michelob added appeal with his skill in drawing and serving this product.
